Portfolio Website | Open to Summer 2027 internships (May – Jul)

Product Designer | Interaction, Visual and Motion Design

Third-year B.Des student at DTU designing user-centered digital experiences through research, interaction design, prototyping and visual systems. Experienced in translating user needs into intuitive interfaces, designing for accessibility, and collaborating with engineers across multidisciplinary teams. Also builds coded prototypes and motion design.

Education

Delhi Technological University, Bachelor of Design (B.Des) **| CGPA:** 8.55/10 (after 3 sems) Aug 2024 – Apr 2028

Experience

Founder and Product Designer, NaviBites Jun 2026 – Present

- Designing an AI-powered food-discovery product, translating the concept into user journeys, wireframes and high-fidelity interactive prototypes; app and AI model under development.
- Conducted a 10-person pilot study of the design prototype; participants reported higher trust when the reasoning was visible, which led to a "Why this pick?" explanation, and a split dietary-preferences flow addressed observed drop-off.
- Built a reusable Figma design system with 50+ components, tokens and interaction states.

Design and Research Lead (Team Manager), Team Inferno – DTU Mars Rover Team Jan 2025 – Present

- Designed a rover-monitoring interface consolidating 4 live camera feeds into a single view for a multidisciplinary hardware–software team.
- Sole designer on a 40+ member team, collaborating with team leadership on design decisions and engineering constraints.
- Presented a data-backed budget proposal that doubled team funding.
- Team results: **World Rank 7**, ISDC 2025; **World Rank 12** and **1st in Project Implementation and Management**, IRC 2025; **World Rank 19** and **highest Business and Partnership Plan score**, IRC 2026; among the few Indian teams to qualify for ERC Remote 2025.
- Designed and produced motion and video content for the team's channels, reaching **100k+ views** and 800+ followers.

Head Designer, Dolu May 2026

- Researched needs across 3 age groups and designed 30+ screens for a WhatsApp-style milk-subscription app; designed dialect-tuned voice ordering after finding older users struggled to type in Hindi, which 10–15 testers found far easier.

Design Intern, Agnirva May 2026 – Aug 2026

- Shaped a space-education product for Class 8–12 learners across 6 deliverables, from research to product spec; research led to source-backed modules, teacher guides and low-bandwidth support.

Visual Identity and Website UI/UX Designer, SEVA First (Delhi-NCR) Sept 2026

- Designed the brand identity, print collateral and a 20+ page website for the SEVA First Innovation Challenge 2026, a Delhi-NCR ministry-backed challenge with **25,000+ participants** from 6,500+ institutions across 8 states and UTs.

Design Intern (remote), Technical Craftsmen, Saudi Arabia **Lead Designer**, Panha (NGO) 2024 – 2026

- Led Panha's digital product from concept to developer handoff; delivered end-to-end UX for 5+ startups and international clients, and 2 complete brand identities for Technical Craftsmen.

Selected Projects

Orivelle (AI + AR Consumer App)

- Designed 50+ screens for an AI + AR skincare app for people who can't afford doctors or trial-and-error products.
- In development: a working coded prototype of the core skin-analysis flow, built with Codex.

ATM Redesign (UX Research and Accessibility)

- Found 3 usability issues through heuristic evaluation; designed an accessible, multilingual flow informed by WCAG 2.1.

Moshi (Robotics · Product and Interaction Design)

- Designed a robot companion's form and OLED-face interaction around its electronics, from CAD to 3D-printed prototype.

Skills and Achievements

Design: User flows, wireframes, interaction design, prototyping, journey/systems mapping, design systems, motion design
Research: Semi-structured interviews, contextual inquiry, surveys, usability testing, heuristic evaluation, thematic analysis, affinity mapping, behavioural frameworks, WCAG 2.1
Tools: Figma, Framer, Adobe Creative Suite (Illustrator, Photoshop, After Effects, Premiere Pro), HTML/CSS/JS
AI: Codex, Cursor, Antigravity, Google AI Studio, Claude, Gemini, NotebookLM | **Languages:** English, Hindi
Achievements: Council Member, Institution's Innovation Council, DTU (Sep 2026 – Present) · Design Coordinator, Kalakirit and Reflect (DTU) · Smart India Hackathon Finalist (2024, 2025)
