**Product and UX Designer · Design Research · Hardware-Software Experiences**

Design student with hands-on UX, interaction and visual design experience across web and mobile. Experienced in user research, Figma prototyping and HTML/CSS/JS, and used to working in engineer-led teams. English and Hindi proficiency

## Education

**Delhi Technological University**, Bachelor of Design (B.Des) | **CGPA:** 8.55/10 (after 3 sems) August 2024 – April 2028

## Experience

**Founder and Product Designer**, NaviBites June 2026 – Present

- Designed an AI food-discovery app end to end; a 10-person pilot showed testers trusted picks more when the reason was shown, so I added a "why this pick" line, and split the dietary step into two screens after drop-off.
- Built a Figma design system of 50+ components with tokens and interaction states, refined with developers.

**Design and Research Lead (Team Manager)**, Team Inferno (DTU Mars Rover Team) Jan 2025 – Present

- Lead 40+ members across mechanical, electrical, software, science and corporate; as the only designer, decide design changes with the captain.
- Designed a rover monitoring portal with 4 live camera feeds; qualified for ERC Remote 2025.
- Won 1st in Project Implementation and Management (IRC 2025) and the highest Business and Partnership Plan score (IRC 2026); ranked 19th at IRC 2026 and 7th at ISDC 2025.
- Built the budget case with evidence on fees, travel limits and costs; the college doubled it.
- Produced all motion reels for the team's page, reaching 100k+ views and 800+ followers.

**Head Designer**, Dolu Sept 2024 – June 2025

- Designed 30+ screens for a WhatsApp-style milk-subscription app after research across 3 age groups; dialect-tuned voice ordering removed the need for older users to type in Hindi, and 10–15 community testers found it far easier.

**Visual Identity and Website UI/UX Designer**, SEVA FIRST (Delhi-NCR) Sept 2026

- Designed the logo, flyer, backdrop and a 20+ page website for a challenge with 9,000+ registrations; helped structure tasks, evaluation and budgeting for the December 2026 edition.

**Design Intern**, Agnirva (ISRO Initiation) May 2026 – Aug 2026

- Shaped a space-education product for Class 8–12 learners across 6 deliverables (requirements, research, quality criteria, product spec, communications, localization), landing on source-backed modules, teacher guides, low-bandwidth support.

**Freelance UX and Brand Designer**, Technical Craftsmen (Saudi Arabia), Panha (NGO) 2024-2026

- Created 2 complete brand identities for Technical Craftsmen; led Panha's digital product from concept to handoff; delivered end-to-end UX for 5+ startups and international clients.

## Selected Projects

**Orivelle** (UI/UX Design: AI and AR Health-Tech (Consumer App))

- Designed 50+ screens for an AI + AR skincare app, based on a skincare problem raised by a group of 10 people, for people with no skin guidance who can't afford doctors or trial-and-error products.

**ATM Redesign** (UX Research and Accessibility: Fintech / Public Interface)

- Built 2 user personas and an empathy map, found 3 usability issues through heuristic evaluation, and redesigned for WCAG 2.1 accessibility with multilingual support and OTP/fingerprint access.

**Anemos** (Industrial and Product Design: Automotive / Sustainable Mobility)

- Identified aerodynamic efficiency and energy consumption as key priorities from research on car modifications and user needs, shaping a streamlined low-drag body for an affordable-luxury solar-electric car designed in Fusion 360.

## Skills and Achievements

**Design and research:** Interaction design, user flows, wireframing, prototyping, information architecture, user research, heuristic evaluation, WCAG 2.1, accessibility, typography, color, grid and composition, Figma, Sketch, Framer Studio, Antigravity, Google AI Studio, Adobe Creative Suite, Fusion 360, HTML/CSS/JS, Blender, SolidWorks, Claude, Gemini, NotebookLM, Contextual Inquiry, Semi-structured Interviews, Usability Testing, Thematic Analysis, Affinity Mapping, Behavioral Frameworks, Journey and Systems Mapping, Motion Design fundamentals, Visual Communication

**Achievements:** Council Member, Institution's Innovation Council, DTU (Sep 2026 – Present) · Design Coordinator, Kalakirit and Reflect (DTU Soc) · Smart India Hackathon Finalist (2024, 2025) **Recommendation:** Recommended by Ashish Banerjee, Technology Evangelist, for design and organising contributions to SEVA First (LinkedIn, Sep 2026).
